

GRIMES 4-H FASHION STORYBOARD – 2018 General Rules and Guidelines

Please be sure to submit entry to County Extension Office by February 1, 2018.

OVERVIEW

The 4-H Fashion Storyboard is an industry-inspired method of displaying original designs. The best storyboards create vivid visual images that are interesting and appealing to viewers. The storyboard “tells the story” of the designer’s idea. The storyboard includes original illustrations and flats, as well as additional materials (such as photos from the Internet or magazines, paper, fabric swatches, patterns, etc.) that have influenced the unique design.

PURPOSE

The purpose of the Fashion Storyboard contest is to give 4-H members an opportunity to create a storyboard of their original design. It also provides the members an opportunity to gain knowledge of the career responsibilities of a fashion designer and illustrator, enhance creativity and originality, and develop visual communication skills.

DESIGN BRIEF

The following design brief serves as the direction for the 2018 Fashion Storyboards. 4-H members should create their Fashion Storyboard around their interpretation of the design brief.

Fashion Design to the Rescue

Wham! Pow! Bam! Take a cue from the superheroes or supervillains found in cartoons, movies and comic books to create your own original design. Whether your inspiration comes from a person with phenomenal powers fighting for noble causes, their masked sidekick, or a criminal archenemy wreaking havoc on humanity, let their colorful and flashy costumes, valorous heroism, and superhuman traits be the stimulus to your extraordinary blueprint to rescuing the world of fashion.

10. **Each Storyboard must conform to and will be evaluated based on the following, but is not limited to:**
 - a. **Visual Appeal/Creativity of Storyboard** – Storyboards should show evidence of creativity by the 4-H member. The layout of the storyboard should illustrate a theme, mood, or spirit of an idea.
 - i. A good storyboard should have a strong focal point.
 - ii. Placement of the inspirational items should allow the eye to flow across all elements of the board without distracting from the design.
 - iii. “White space” or “blank space” should be kept in consideration. Too much or too little white space detracts from the design.
 - iv. Additional photos and other materials can be used to show the inspiration for the design. These additional materials should enhance the storyboard, without taking away from the original design.

- b. **Quality of Workmanship** – Storyboards should be neat and demonstrate quality of workmanship.
- c. **Consistent Color Palette** – Use a consistent color palette and theme throughout the board.
- d. **Fabric Samples, Trims, and Embellishments** – Fabric samples must be included on the board and be appropriate for the design illustrated. Trims and embellishments that would be used on the garment/outfit should be included, if applicable to the design.
 - i. If the exact fabric swatch cannot be found, a “basic swatch” may be used to illustrate fabric type (denim, linen, etc.), and the 4-H member can draw out the detail.
 - ii. examples of trims and embellishments would be top stitching, piping, buttons, etc.
- e. **Dimension** – Must use foam core board or mat board. Must be 20" x 30", displayed horizontally or vertically. **Do not use poster board.**
- f. **Consistent Theme** – All elements are cohesive and support the design brief.
- g. **Originality of Designs** – All design illustrations and flats should be the original work of the 4-H member. The design may be hand drawn or computer drawn. No “copying and pasting” from someone’s design as seen on the Internet, in a magazine, or other sources for the original design.
- h. **Design Detail** – Should include the at least one Illustration and at least one Flat.
 - i. *Illustration* – Include at least one main artistic and appropriate fashion illustration. At least one illustration must be on a model/croquis. The model/croquis does not have to be an original drawing and may be traced. See the example below.
 - ii. *Flats* – Include at least one flat. Flats are working drawings that are not on a model/croquis that illustrate other views like you would find on a dressmaker’s pattern envelope. The flats should depict the garment from other views and details. See the example below.

Flats combine style with information. You have created an original design and now you need to be able to create a drawing to help someone else see how to make it. Flats are drawn to define shape, fit, construction and sometimes fabrication. Flats are more factual than the same garment drawn on the figure, posed for dramatic looks. They show how a garment is to be made versus how it will be worn.

These drawings for fashion manufacturing are always drawn looking at the garment, never at an angle. Consider this your only means of communication to the seamstress; if you leave out a particular detail, the garment won’t end up being manufactured properly. The details must be exact and clearly specified.

Jewelry Design – flats need to include the technical aspects of a piece of jewelry including clasps, crimp beads, cord or wire, jump rings, etc.

Non-wearable can include details on construction materials and dimensions.

i. **Titles/Labels** – The title for each storyboard must be: **Fashion Design to the Rescue**

A subtitle may be used for a more personalized name of the design. Labels may be included to enhance the storyboard or to clarify a point, but they will not be required.

j. **Design Brief** – Storyboards should follow the design brief and category descriptions.
